Diplomatic efforts are being made with Nepal to discourage the activities of certain agencies inimical to India's interests on the India-Nepal border. A High-level dialogue to address our security concerns is in progress. We have been assured at the highest levels in Nepal that their terrirtory will not be misutilised for activities inimical to India's interest. Suitable mechanism have also been evolved to prevent misuse of the open border between the two countries.

The Central Government and the State Governments concerned have also taken steps to enhance vigilance on the border to check the activities of undersirable elements and militants. All Central and State Agencies have been instructed to step up enforcement in a coordinated manner. The concerned State Governments have also been advised to evolve an Action Plan to strengthen policing along India-Nepal border.
